## EXPORTS AND IMPORTS.

The Bureau of Statistics has issued a comparative statement of the exports and imports of the principal articles during the month of October, 1896, and the ten months ending October 31st. The exports of breadstuffs amounted to \$19,864,896, as compared with \$12,207,011 for October, 1895. For the ten months ended October 31, 1896, the exports amounted to \$135,298,984, as compared with \$97,622,551 for the corresponding months of 1895. The cotton exports during October aggregated \$37,245,493, as compared with \$27,808,447 in October, 1895. The mineral oils exported in October amounted to \$6,094,163, and for the same month in 1895 to \$5,690,514. For the last ten months the value of these oils exported was \$52,325,276, as against \$44,972,499 in the same months in 1895. Provisions exported in October, 1896, amounted to \$14,659,200, as compared with \$13,147,632 in October, 1895. For the ten months ended October 31, 1896, the exports of provisions amounted to \$135,351,718, as compared with \$125,598,555 in the corresponding period of 1895.

The total exports of domestic merchandise for ten months of 1896 amounted to \$752,868,113, as against \$681,512,565 for the ten months of 1895. The imports of merchandise for the ten months ended October 31, 1896, amounted to \$672,461,905, as compared with \$676,123,489 for the corresponding period of 1895.

The gold exports in October, 1896, amounted to \$343,163, as compared with \$1,873,897 in 1895, and the imports of gold amounted to \$27,961,938 in October, 1896, as against \$1,897,040 in October, 1895.

The exports of silver during October, 1896, amounted to \$4,794,339, for October, 1895, the amount was \$4,591,447. In October, 1896, the imports of silver amounted to \$888,422, for October, 1895, the amount was \$1,391,831.

The flood of silver which the gold men told us would inundate the country is not apparent in the statement of exports and imports, as we are exporting about five times as much of the metal as we import. The truth is under the benign influence of gold-bugism our silver, of which we export three or four millions monthly, is kept down to the lowest possible price and is taken to Europe where its value is doubled by running it through the mint. If that is good for the country, the country is likely to be benefited for four years more.

## THE FAMINE IN INDIA.

The famine in India causes the gravest concern in England. The Secretary of India, in what the newspapers say is a remarkable speech, admits that over 70,000,000 of people are threatened with a scarcity of food, though the government has some prospect of alleviating the suffering. The Russian newspapers are appealing for subscriptions for the relief of the Hindoos. This action on the part of Russia is looked upon with considerable suspicion in London, as it is suggested that the Russian Government should superintend the buying of grain and dispatching it to the starving Hindoos. The moral effect of this the English authorities think will be bad, especially if agents of the Russian Government distribute money and grain in India. The German papers say the famine has given Russia the opportunity of commanding itself to the Hindoos as a generous friend in time of need and create the impression among them that Russia would provide for their wants much better than the British Government. The latter cannot object to the Russians distributing food among the starving Hindoos, and Russia would not heed an appeal for aid from the British Government if the aid is to be furnished the famine-stricken people through British officials.

The famine in India has caused an advance in the price of wheat throughout the United States, but as the Hindoos are poor they cannot afford to purchase high-priced food unless the Government furnishes money for the purpose.

## NOT SOUND ENOUGH TO SATISFY THEM.

The gold men have discovered since election that the currency is not as sound as they represented it to be. The Chicago Record has been getting the opinions of a large number of financiers on the money question and the financial course to be pursued by McKinley's administration. Upon one thing they all agree and that is the immediate retirement of the greenbacks. They insist that all the greenbacks should be called in and gold bonds issued to redeem them with, and that the banks should be permitted to issue notes to the full amount of these bonds in their possession. It appears that the greenbacks are not as sound currency as the gold men desire. They are taken at par, it is true, for everything except duties on imports and interest on the public debt, but they draw no interest and therefore are not "sound." Anything in the shape of paper money that costs the people comparatively nothing and that is not drawing interest, is not sufficiently sound to satisfy the rapacious gold men.

The Illinois Steel Company has given notice to its employees that a reduced scale of wages will go into effect December 1st.

## SNOW IN WASHINGTON

The Most Destructive Storm West of the Rockies Since 1844.

SEATTLE, November 23.—Seattle and the entire northwestern portion of the State are emerging from the throes of another disastrous snow storm, lasting from Friday afternoon until one o'clock this morning. Twelve inches of snow fell in as many hours, the full fall being eighteen inches, an equivalent of 1.81 inches of rain. The snow carried down all the Western Union wires and completely wrecked the telephone and electric light systems. The operation of all electric railways was likewise stopped. Should the snow continue to melt as rapidly as it is now, it will bring increased disaster to the Cascade division of the railroads.

"We will have our lines ready for overland trains Tuesday," Samuel Hill, Vice President of the Great Northern, replied to-night at the Butler Hotel on being asked when that portion of the main line which has been tied up by washouts in the Cascade mountains since a week ago last Friday would be in operation again.

Chief Engineer Stevens accompanied Mr. Hill West. They came over the Great Northern to Skykomish, there crossed the river in a row-boat and came thence to Seattle on a work train. According to Mr. Hill the most serious trouble with which the road is now confronted in resuming traffic is in constructing a bridge over the Skykomish river, and this, he thinks, will be completed by Tuesday.

"This has been the most destructive storm to all property, from the Rocky Mountains west to the coast, that has occurred since 1844," the Great Northern Vice President resumed. "As to the bridge washouts, both railroad and public, they have been occasioned more by reason of persons throwing trees, logs and wood in the river than high water."

Mr. Hill was attired in a storm suit and bore unmistakable evidence of having taken a very active part in superintending the work of repairing along the line of the Great Northern from the Rockies to the coast.

## TELEGRAPHIC NOTES.

The failure of Webster & Boney of London, England is announced. The liabilities are \$900,000.

Colonel Fred Grant has been to Canton to pay his respects to Mr. McKinley. He says he would like to be Secretary of War.

It is positively announced that there will be an extra session of Congress called immediately after the inauguration of McKinley.

The National Bank at Sioux Falls, South Dakota, has closed its doors. It has a capital stock of \$50,000 and its liabilities are \$280,000.

The Navy Department has decided that certain imperfections exist in the battleship Texas, and will make an effort to remedy them.

Nothing could be learned at the Patent office of an application for a patent for the flying machine alleged to be making successful trips near Sacramento.

Cashier Hofer of the First National Bank of Lebanon, Penn., has confessed his guilt to one of the directors. The amount of the defalcation will reach about \$100,000.

General Gomez of the Cuban Army, who it was feared had been taken in by the Spaniards, reports that he has 35,000 well equipped men and intends to proceed to Havana province.

Senator Hawley of Connecticut says it is no use to try to pass the Dingley bill. He thinks it would be far better for McKinley to call an extra session and pass such a tariff bill as the country requires.

General Manager Hanna declares his determination to arrange the inaugural ceremonies. He says he has decided to make appointments as he sees fit and will take a distinct pride in the showing that will be made by Ohio.

A stranger stole a tray of diamonds worth \$6,000 from the store of Clemens & Kamp, Cincinnati. Being closely pursued the thief dodged into a building and left his overcoat and the diamonds and made his escape.

Marion S. Smith, United States District Attorney of Arizona, has resigned. He was notified that it was "perfidious partisanship" for a Government official to advocate the cause of silver. Mr. Smith was elected Delegate to Congress on the Silver ticket.

The monument erected at Orchard Knob, Tennessee, to the memory of the New Jersey troops, who fought at Chickamauga, Chattanooga and Missionary Ridge, was dedicated yesterday. Several prominent persons from New Jersey were present and several speeches were made.

Congressman Hartman of Montana, who bolted the St. Louis Convention, says the cause of bimetalism is not political but natural. He does not feel discouraged as there will be a second battle in 1898 and a sweeping victory in 1900. He thinks the outlook for tariff legislation is gloomy.

A fight started in Cleveland, Ohio, in a district inhabited by Slaves and Hungarians, and some forty or more persons engaged in the combat. Knives and clubs were used and about one-half the combatants were seriously injured. When the police reached the scene nearly all the fighters except those who were unconscious had fled.

School Shoes. Tassell Brothers have a large and fine assortment of shoes for school children which parents are invited to call and inspect as they are being sold at a very low rate.

## A Fascinating Play.

No play was ever more fascinating than "Alabama," which will be at the Opera House Saturday evening. It is one of the few plays that will bear seeing again and again. "Alabama" is now in its fifth season, and its progress through the country has been triumphant. Each season is more successful than the preceding one, and no doubt this is due to the fact that the high standard of the company has always been maintained.

## Hooklen's Arnica Salve

## MARRIED.

BARONI-DEGIOVANNI.—In Reno, Nevada, Nov. 21, 1896, by Rev. Father Kiehl, Antonio Baroni to Angelina DeGiovanni, both of Buffakers.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

## THAT WAVE OF PROSPERITY.

It Began to Recede Before It Got  
Started.

Editor Journal.—The "wave of  
prosperity" which the plutocratic press  
says is sweeping over the land is not  
yet visible to the naked eye.

R. G. Dan, in his trade review for  
the week ending November 20, says:  
"Failures for the week have been 344  
in the United States against 320 last  
year."

This is not the kind of business pro-  
sperity the United States enjoyed when  
it was doing business with cash instead  
of confidence. Three hundred and  
forty-four business failures a week is at  
the rate of 17,900 business failures a  
year. Compare this record with the  
year 1895, when the business of the  
country was conducted on practically  
a cash basis, and when the failures for  
the whole year were only 630, and see  
if an inflation of cash is not much bet-  
ter for the business interests of the  
country than an inflation of confidence.  
In 1895 we had about \$50 per capita in  
circulation among the people. Now  
we have about \$15 per capita locked up  
in the vaults of the bondholding  
centers and it is withheld from circula-  
tion until some gilt edged interest-  
bearing bonds are put up for its use  
only to be shortly returned to the bond-  
holding centers to be again locked up  
to await more buyers.

Mr. Editor, the gold standard and  
the percentage confidence game of the  
extortioners has put this country in the  
throes of bankruptcy. Cleveland  
promised the country prosperity if  
Congress would repeal the Sherman  
law and the McKinley law. Congress  
did as requested, but prosperity did  
not come. The Republicans said in  
1894 elect a Republican Congress and  
prevent the Democrats from doing any  
more mischief and times will get bet-  
ter. Both predictions have proven  
false. In 1896 the Republicans said,  
elect a Republican President; defeat  
this free coinage craze and confidence  
will be restored and prosperity will  
surely come. The result of the elec-  
tion of 1896 shows that a majority of  
the voters were psychologized and  
voted the Republican ticket believing  
that the Republican hypnotizers were  
telling the truth. But the rapid in-  
crease of failures and the scaling down  
of orders for more goods, shows that  
the wave of prosperity began to recede  
before it got started.

RENO, NOV. 23, 1896.

## THE PRICE OF HAY.

The Crop Not as Large as Usual.

Farmers say a few sales of hay have  
been made at \$4 50 per ton in the stack  
but the purchaser to feed it to stock at  
his own expense. This expense is gen-  
erally reckoned at 50 cents per ton.  
Many farmers will not sell at \$4 50 per  
ton, as they say it will not pay and  
they will hold it for higher prices.

The hay crop this year is said to be  
lighter than the average and while there  
are not as many cattle feedings as usual,  
farmers believe that prices will be  
much better before spring, and many  
of them will not sell for less than \$5  
per ton and some are not disposed to  
do so at that price.

## Football at Verdi.

An interesting game of football took  
place at Verdi Sunday afternoon, the  
Corrona's of Reno and the Verdi team  
contesting. Verdi kicked off sending  
the ball well into Corrona territory,  
but Seitz caught it and carried it to  
center where a lively scrimmage oc-  
curred. The next good move was  
when McCarran received the ball and  
made an eighty-five yard run for  
Verdi's goal, scoring the first touch-  
down in 58 seconds. He failed to kick  
a goal however and the ball went to  
center. McCarran again came to the  
front with a long run and scored four  
points, but missed his goal.

In the second half the Verdi team  
made several rushes and forced the  
ball away from their goal past center  
into Corrona's ground, where Caine  
kicked goal and the ball was returned  
to center. At this point Simas received  
the ball and broke through the Verdi  
line, carrying it almost to goal. Time  
was called and the game was decided  
in favor of the Corrona's by a score of  
8 to 6.

Caine, Mitchell and Lonkey of the  
Verdi team are especially commended  
for the excellence of their playing,  
while the Corrona team did splendid  
work from first to last. Jacobs, Stod-  
ard, Bowman and Berry of the latter  
playing a good game. The Corrona's  
were outwitted by the Verdi's to the  
extent of twenty pounds to the man.

The tackling by Mapes and Dick-  
enson; the interference by Gates and Gil-  
son, and the long runs by Simas  
and McCarran were features, while  
Seitz, who played quarter-back, is a  
whole team in himself.

Verdi turned out en masse to wit-  
ness the game and encouraged the  
boys with hearty applause.

## SOUTH DAKOTA.

The count is in progress in South  
Dakota. A Pierre Judge ordered the  
count of a precinct which had been  
thrown out. The Populist Congress-  
men are both elected by a majority of  
119. The total vote of the State was  
82,000. Bryan's plurality on the un-  
official figures is 446.

## FABIO ROMANI.

Miss Hunter, who will appear with  
the Fabio Romani company at the  
Opera House Thursday, Nov. 26th, re-  
ceived the following compliment:

Mr. James Stevenson Ewing, the  
American Minister at Brussels, is a  
cousin and former law partner of Vice-  
President Stevenson. Mr. Ewing  
pours himself out thus over the stereo-  
typical dance as given by Miss Grace  
Hunter.

"You go to see a ballet dancer, and  
instead you behold a wonder, a marvel,  
a miracle! A thousand effects of light  
and shadow; of interchanging and in-  
termingling of colors, glittering and  
flashing in innumerable suggestions of  
beauty. You see every conception of  
form in curve, circle and graceful line  
of beauty. You see an endless suc-  
cession of dazzling visions, and as they  
come and go to measured strains of  
sweet music, you catch the glimpses of  
the face of an angel and the form of a  
Venus. You go away with pleased im-  
agination. You have feasted on  
beauty in multiplied forms."

"These effects are not simply scenic,  
but are associated with the artist.  
They are beautiful pictures—not copies,  
but originals. They reproduce them-  
selves on the brain, and hang them in  
the halls of memory."

## A Few Reserved Seats Left.

Owing to the demand for reserved  
seats the management of the U. C.  
Glee Club Concert has found it neces-  
sary to reserve some seats in the gal-  
lery. Four rows will be put on sale  
to-day at Lake's. Some of these have  
been reserved for students. Students  
may get their seats from Lake's until  
Thursday noon, when the seats still  
untaken in their section will be thrown  
open to the public. These reserved  
seats will be sold to students for 50  
cents. The remaining reserved seats  
in the gallery will be sold for 60 cents  
to the public.

## The Thanksgiving Ball.

If the way the tickets and costumes  
are going count for anything the  
masque ball to be given Thanksgiving  
night by Monumental Hose Company  
will be one of the largest ever given in  
Nevada. The boys are sparing neither  
pains nor expense to make it a grand  
success, and they are known to never  
do anything by halves. The floor will  
be under the direction of S. J. Hodg-  
kinson, Chief, while the entire company  
will attend to the doors in person,  
which alone will insure respectability.  
All maskers will positively be required  
to lift their masks, or admission will  
be refused. Turn out and give the  
boys a benefit.

## A Wedding.

Sunday afternoon, at the Catholic  
Church, Rev. Father Kelly joined in  
matrimony Antonio Baroni, a Wel-  
come young rancher of Washoe Val-  
ley, to Miss Angelina DeGiovanni of  
Huffakers. The bride is one of the  
children of Angelo DeGiovanni, the  
old time rancher of Washoe county, in  
whose residence therein of 25 years he  
has raised a stalwart family of seven  
boys and four girls. The bride is a  
sister of Mrs. Felix Vogliotti and Mrs.  
Colombo Bettini.

## Viava Is King.

Visitors to Reno are cordially invited  
to call and investigate the merits of  
Viava. I have sold since June, 1895,  
\$13,900 worth, this speaks its value  
without further words.

Mrs. B. E. Hunter,  
Fourth Street.

## BREVITIES.

Drs. Phillips and Hogan have in-  
formed Judge Hawley of the United  
States District Court that Mrs. Cough-  
lin, who has been indicted for selling  
whisky to Indians, is of unsound mind,  
and is a more fitting subject for the  
lunatic asylum than for the State  
prison.

The Carson Weekly says the Indians  
are having a big time at the Stewart  
Institute south of town. A greater  
part of the Washoe tribe of Indians is  
there to note the progress of their  
children at the school. The band  
played and dancing was on the pro-  
gram yesterday.

Charles E. Roberts, the well known  
sporting man, leaves this morning for  
Beckwith in order to give the boys of  
Sierra Valley a Thanksgiving treat.  
He has leased the sporting parlors of  
the Beckwith Hotel and during the  
three thanksgiving days of the 25th,  
26th and 27th will give the boys a car-  
nival of all descriptions of sporting  
games.

## An Eloquent Discourse.

Every seat in the Opera House was  
filled Sunday evening when Rev. F. C.  
Lee of the M. E. Church opened the  
services. The congregation joined in  
singing familiar hymns, such as "Book  
of Ages" and "Nearer My God to  
Thee," leaflets containing the selec-  
tions for the evening were distributed  
among the congregation. The sermon  
was a broad, liberal discourse which  
set skeptics and agnostics to thinking  
and the services throughout were in-  
structive and edifying. Mr. Lee in-  
tends to continue the Sunday evening  
services in the Opera House during the  
winter.

## Cure For Headache.

As a remedy for all forms of head-  
ache, Electric Bitters has proved to be  
the very best. It effects a permanent  
cure and the most dreaded habitual  
sick headaches yield to its influence.  
We urge all who are afflicted to procure  
a bottle, and give this remedy a fair  
trial. In cases of habitual constipation  
Electric Bitters cures by giving the  
needed tone to the bowels, and few  
cases long resist the use of this medi-  
cine. Try it once. Large bottles only  
fifty cents at S. J. Hodgkinson's Drug  
Store.

## Diphtheria Cure.

The testimony of a prominent phy-  
sician:  
FOUNTAIN CITY, Ind., June 17, 1896.  
This certifies that I have been using  
V. O. in my practice. I have never  
found any medical preparation in 46  
years of practice that is calculated to  
do so much good in so wide a range of  
diseases and leave no after bad effects.  
In Diphtheria it has proved a perfect  
specific in my hands, and I had rather  
depend on it alone in that dreadful  
disease than the whole popular Materia  
Medica with that left out.

## AN IMPORTANT DIFFERENCE.

To make it apparent to thousands,  
who think themselves ill, that they are  
not afflicted with any disease, but that  
the system simply needs cleansing, is  
to bring comfort home to their hearts  
as a positive condition is easily cured  
by using Syrup of Figs. Manufactured  
by the California Fig Syrup Company  
only, and sold by all druggists.

## An Enterprising Thief.

"The most enterprising thief I ever  
heard of was one whom I was appointed  
by the court to defend," said Henry W.  
Joy, a prominent St. Louis lawyer. "A  
wealthy man died, and as his coffin  
was obtained as money could buy. There  
was some very heavy solid silver plate  
on it. As the hearse moved off a well  
dressed, businesslike looking man was  
seen to enter it, carrying a little sack as  
if of tools. Every one who noticed him  
at all supposed he was an assistant of  
the undertaker. Just before the proces-  
sion reached the cemetery the man  
emerged from the hearse and went  
ahead, disappearing at the gate. When  
the coffin was removed, all of the trun-  
plings were gone, and the young man  
was not to be found. He melted the sil-  
ver and sold it, and had it not been for  
a pal betraying him he would never  
have been caught."—Washington Star.

## Power of Modern Guns.

A calculation of the power of a mod-  
ern gun brings out the singular fact  
that the active life of a 100 ton gun is  
just one second. An Italian cannon of  
this caliber, with a charge of 550 pounds  
of powder and a shot weighing about  
2,000 pounds, will give an initial vel-  
ocity of 523 meters per second. The length  
of the time during which the powder  
acts is less than one hundredth of a sec-  
ond, and after 100 shots the cannon is  
put out of service.

It is estimated that during the active  
period of the work of the powder in the  
gun the mean power is greater than  
87,600,000
